Chairman Kevin J. Martin:

My letter is very simple.

My Comcast Cable Television **Bill** is too high and keeps increasing with **no** change to my service.

I find my **ComCast Bill Outrageous** and think **ComCast** is very smart politically with their company philosophy of 'Service to the Communities' as they **stick** it to the people of the communities with higher bills.

Provide competition to Comcast so companies will compete and **television cable bills will** be lowered. Right now I have no choice. The only provider available is Comcast.

Thanks for the assistance.
